SUMMARY

Applied Bachelor's Degree from Politeknik Negeri Jakarta with specialization in Informatics Engineering. Enthusiastic in learning new things and aspire to have a career in technology industry. Proficient in back end, front end, and mobile programming.

My education at Politeknik Negeri Jakarta and CCIT-FTUI has equipped me with a solid foundation in software engineering and computer science, including mastery of coding fundamentals. In addition, I have also developed soft skills such as leadership, team work, and adaptability. I am ready to deliver optimal performance and meaningful contributions.

EXPERIENCE

Full Stack Developer & Mobile Programmer

08/2023 - 12/2023

PT. Mekar Prana Indah (BIDAKARA)

During my internship at PT. Mekar Prana Indah (BIDAKARA), I participated in the design and development of the Request and Use of Warehouse Goods (PERANGGU) website and MPI Scanner mobile application. I developed my technical skills such as HTML, Bootstrap, Laravel, Flutter, MySql, etc. These skills were utilized through my active involvement in the development of the PERANGGU website and MPI Scanner application. In addition, I also developed soft skills such as leadership, teamwork, etc. these skills were used through my active involvement in the construction of the PERANGGU website and MPI Scanner application. internship at PT. Mekar Prana Indah also gave me an understanding of the world of work especially in the field of software developers and also provided good experience as a strong foundation for my future in this field.

EDUCATION

Teknik Informatika & Komputer

09/2020 - 10/2024

Politeknik Negeri Jakarta - Bachelor's degree

During my studies at Politeknik Negeri Jakarta, I got a thorough education in the fundamentals of software engineering and computer science. I learned basic coding skills and applied them practically through PHP frameworks such as Laravel. Overall, my education there has provided a strong foundation in software engineering and computer science, preparing me for a successful career in the technology industry.

Software Engineer

09/2020 - 07/2022

CCIT Fakultas Teknik Universitas Indonesia - Associate's Degree

It is an IT (Information Technology) professional program organized by the Faculty of Engineering UI. This professional program is a collaboration between FTUI and NIIT India. During my time as a student in CCIT FTUI, I learned the basics of software engineering, such as HTML, CSS, Java, Javascript, Flutter, Figma, etc. Not only to be understood, but every material must be implemented in every required project.
